Tachts to Be Measured in a Graving Dock if
Possible—Reyal Ulster Club Wanted a Flying Start and No Time Allowance—This is
Not Granted—Conditions of the Races.

Secretary J. V. S. Oddie yesterday gave out the latest correspondence that has passed between the Royal Ulster Yacht Club and the New York Yacht Club relating to the coming contests for the America's Cup. The letter from the Royal Ulster Yacht Club, signed by Hugh C. Kelly, the Secretary, referred to the conditions that are to govern the races, a copy of which has been received by the Regatta Committee as described in the preceding paragraph, for case of fog.

To be announced as early as practicable and the tug bearing the marks to be started ten minutes prior to the preparatory signal.

"In every case the course from the starting sland out from Sandy Hook Lightship, the Regatta Committee may provide some other suitable starting point, and in this case the preparatory signal will be given about half an hour later than the time named for starting from the Lightship.

"Length of Courses—The course shall be. as nearly as possible, thirty nautical miles in length.

"Start—The starting signal shall be given as nearly as practicable and the tug bearing the marks to be started ten minutes prior to the preparatory signal.

"In every case the course from the starting light out from Sandy Hook Lightship.

"In case a course, as required by the conditions, cannot be laid to windward, if possible from Sandy Hook Lightship.

"In every case the course from the starting light out f conditions that are to govern the races, a copy of which has been received by the Royal Ulster Yacht Club. The challenging dub requested some slight changes in the phraseology of the clause regarding signals -bich the New York club cheerfully agreed ro. In the original copy of the conditions

this clause read:
"Signals: The preparatory signal shall be given fifteen minutes before the starting signal and a warning signal five minutes before the starting signal. In case of a change in the time of starting, the same signal shall be used. "At the starting signal a yacht may cross the line; the exact time at which a yacht crosses the line during the succeeding two minutes to be taken as her start, and the end

of that period as the start of the one crossing after its expiration." The changes suggested all refer to the

second paragraph, which now reads:
"At the starting signal a yacht may cross the line; the exact time at which either yacht first crosses the line after the starting signal, during the succeeding two minutes, to be taken as her start, and the end of that period as the start of the yacht crossing after its expiration.

As the clause is now worded the skipper of one yacht will be at liberty to force the other to cross the line if he can and then take his own time about following. It makes the rule clear about crossing the line and the time is to be taken when the yacht first goes over. The second request was that the Shamrock should have three weeks for fitting out in case she should arrive late. This is allowed, but the New York Yacht Club insists that the first race must be sailed not later than Aug. 27,

which is only one week later than the time mentioned in the challenge The third request was for a flying start, but this was not allowed The Royal Ulster Yacht Club suggested that a flying start without time allowance to either yacht be substituted for the two minutes to get over the line. The fourth request was that the yach ts be measured in the graving dock of the Brooklyn Navy Yard, if practicable. Last year both achts were measured in the navy yard dock, and the result was very satisfactory to both sides. When George L. Watson was here last the yachts were measured in the Erie Pasin, and after the first race, owing to the charges of Lord Dunraven, it was necessary charges of Lord Dunraven, it was necessary to measure both yachts again. They were taken to the Erie Basin the morning after the first race, and attempts were made to measure them outside the graving dock. It was hard work to get an accurate measurement on account of the movement in the water, and Mr. Watson jumped overboard in order that Measurer Hyslop might get his measuring stick in the right place. Mr. Watson probably had this in mind and suggested to the Royal Ulster Yacht Club that a request is to be made to measure bo th yachts in the Navy Yard sraving dock. The Cup Committee agrees that this is important and will do all it can to secure the use of the dock for this purpose. The correspondence between the two clubs is as follows:

"DEAR SIR: "I have the honor to acknowledge the receipt of your communication of Jan. 30, 1901, requesting, on behalf of the committee of the R. U. Y. C. the considerations in the conditions to govern the coming races for the America's Cup, which were forwarded to you on Dec. 10, 1900. Your letter was submitted to our committee on Feb. II, with the result that they cheerfully agree to the following changes, viz.:

"First—That the clause entitled 'Signals,' be changed to read as follows:

"Signals—The preparatory signal shall be given fifteen minutes before the starting signal. In case of a change in the time of starting the same signals shall be used. At the starting signal, a yacht may cross the line: the exact time at which either yacht first crosses the line after the starting signal, during the succeeding two minutes, to be taken as her start, and the end of that period as the start of the vacht crossing after its expiration. No race shall be started under the clause 'New York Yacht Club rules to

1 P M "Second—That there be inserted under the clause 'New York Yacht Club rules to govern.' a second paragraph, to read 'The first race shall be sailed on Tuesday: Aug 20, 1901, unless the Shamrock II should be detained by stress of weather, or other cause, in which case three weeks shall be given her for fitting our after her arrival; but the first race shall not be started later than Aug 27, 1901, and the races shall be sailed on Tuesdays. Thursdays and Saturdays, until completed.

This clause allows the same period after arrival as was provided in the agreement for the last match. It was omitted from the conditions sent you through inadvertance.

Third—I am instructed by the committee to answer the suggestion of your committee that there he a flying start without any time allowance to either yacht, by saying that they see no reason for changing in this respect, the conditions governing the last match.

in this respect, the conditions governing the last match.

"Fourth—I am also requested to state in reference to the suggestion of your committee that the rules as to measurement be modified so as to provide for measurement at the Graving Dock of the Brooklyn Navy Yard, that our committee concur in your opinion that the Graving Dock is the heat place to measure the yachts, and will do all that they can to secure it, but in view of the fact that they have no control of it and cannot be assured, in advance, of their ability to obtain its use, it is deemed inexpedient to make this one of the conditions of the match.

Will you kindly insert the changes herein agreed upon in the copies of the conditions that you have, and forward them to me, dilly sumed by your committee, that I may be furname to you signed by us? Yours sincerely, J.V.S. Oppits, Secretary, H. Or. C. Kelly, Esq., Hon. Secretary, it is good the sent to the Royal Ulster.

Toronto, Feb. 27.—There is great disappointment here over the announcement that the Royal Canadian Yacht Club will only build one boat to substantiate its challenge for Canada's cup. On the face of it, it seems akin to folly to depend upon one boat to defeat the pick of five boats from the boards of the best designers of small boats, barring the Herreshofts, the United States can produce, but the committee in charge of the matter is satisfied that the design it selected will produce a boat so much superior to either Beaver or Minota, the 1892 challengers, Only two designs were considered by the committee, that by H. C. McLeod, designer of the Minota, and the prints of Sibbyck, the Solent expert. The English-designed craft will be constructed and Capt Andrews iof Oakville is already in possession of the lines. "She will be a grand boat," said Commodore Goderham to-day. "I am confident that the Sibbyck boat will have no difficulty in defeating either Beaver or Minota."

A meeting of the new Board of Trustees of the Atlantic Yacht Club was held at the rooms of the Yachtsmen's Club last Monday evening. Major J. Fred Ackerman was elected chairman. Spencer Swain was reappointed chairman of the House Committee for the senson of 1961. Vice-Commodore Robert P. Doremus and Rear Commodore Robert J. Robert were appointed as the Transportation Committee. Secretary Louis F. Jackson reported several new yachts added to the fleet and a number of applications for membership.

The House Committee will at once begin to put the clubhouse at Sea Gate in shape for what is expected to be a most prosperous season. As the international races take place in August in the height of the yachting season it will tax the capacity of the Atlantic's house to the utmost to provide accommodation for its members and their guests. After a struggle lasting fifty minutes in which neither team was able to score, the hockey game at the St. Nicholas Rink last night between Cutier and Columbia Grammar schools, was postponed to be played on some future date. The game was an interesting one from the start, and although the puck was dangerously near the cage many times, the clever work of the goal keepers, Muser for Cutier and Strange for Columbia Grammar, prevented a score. Dabney and Cornell played a fast game for Cutier, while O'Brien's clever offensive play for Columbia Grammar saved his team several times from being scored against.

Choynski and Johnson Still in Jail.

GALVESTON, Feb. 27 .- The pugilists Choynski and Johnson are still in jail regardless of ski and Johnson are still in Jall regardless of the effortsof their attorneys to either get them released on a writ of habeas corpus or have their bonds reduced. All Judges approached seem averse to granting the writ. District Judge Stewart, when applied to, emphatically declined and said the puglists were worse than murderers. The Grand Jury will begin its investigation Monday next.

the President, who is in Europe. After the routine preliminary business, which will include the annual reports from the Secretary month ago will be in order. The new names on it are those of R. H. Robertson for Presi-dent and James A. Stillman and L. C. Murdock for Governors. According to custom Mr. Robertson will take the chair on his election, and will follow the example of his predecessors by authorizing in his inaugural speech the policy that in his judgment should guide the affairs of the game for the year. Mr. Thomas, in the two years of his presidency, gave great attention to the necessity of building up minor leagues of golf clubs to work in cooperation with the parent organization and to the need of safeguarding in every way the amateur standing in golf. These objects will undoubtedly be indorsed by Mr. Robertson.

Each associate club may send two delegates

to the meeting and the allied clubs may send one delegate, but he shall have no power to vote. Including the Apawamis Club, which will be elected an associate member at the Executive Committee meeting this afternoon, there are twenty-five clubs that may send voting delegates, and the last count showed 149 allied clubs. Palm Beach, Feb 27—A golf match that breaks all records for length of contest and one of the most stubbornly fought games ever known, was that of the finals in the men's four-some who went for the Trevelli cups. After playing twenty-two holes yesterday darkness stopped the contest, when it was still undecided. The players, C. F. Watson and his son of the Essex Country Club of Orange and Clayton Dixon and A. W. Black of Philadelphia and Pittsburg, went hard at it again at daylight this morning. Again at the finish of the eighteenth hole, the game still stood all even, after forty holes of grand golf, bogey figures by one of the four being made on every hole. As they played the forty-first hole, a crowd of 200 people gathered about the tee at the clubhouse. Watson, senior, drove the first ball and carried 190 yards, just short of the green; Watson, Jr., then teed up and drove 170 yards. Clayton Dixon drove a ball that ran 180 yards and A. W. Black drove about 145 yards. The latter over approached, missed two puts and got a five; Watson, Jr., over approached and got a five; watson, Jr., over approached unless the other two men did better. Dixon approached and his ball bounced erratically and went far over the green on a short approach shot. Then Watson, Sr., played his approach about the same distance as Dixon's It was a beautiful pitch that rolled into the hole for a two and won the match for himself and son, amid applause at the sensational finish.

O. Jackson, a Negro Jockey, Rides Over Tip Walsh at New Orleans.

NEW ORLEANS, Feb. 27 .- An accident oc curred in the first race here to-day which looked as though it would deprive Jockey "Tip" Walsh of his life. As the field straightened out for home Stockholm stumbled into a hole and went down with his rider. A. Weber Improvident, who was directly behind Stockholm, fell over the prostrate horse and boy and went down in a heap with his rider, "Tip" Walsh. Weber ran to the outside fence, but Walsh stood in the centre of the track ! the magnates at the Fifth Avenue Hotel in a dazed condition. The boys on the other horses all pulled out, except C. Jackson, and Treasurer, the election of the ticket a negro jockey on Lizzie Jackson, who was club from the meeting. The trouble arose presented by the Nominating Committee a sixteenth of a mile behind the field. Jack- over the question of rowdy baseball. The son came on down the stretch at full speed | League passed a rule to the effect that if a and knocked Walsh down. Walsh was picked | player should indulge in the use of obscene and knocked Walsh down. Walsh was picked up and carried to one of the stables and the track physician summoned. After a careful examination it was found that no bones were broken. In a short while he regained consciousness and was conveyed to his home. Weber was not as fortunate as Walsh. He received a broken collarbone and was taken to the Charity Hospital. The negro Jackson was looked for after the race, but could not be found. He got the colors off in a hurry and made himself scarce. The stables of Tom Nepper, W. H. May & Sons, and E. R. Bradley shipped to Memphis to-night. The Lexington Selling Stakes for two-year-olds at four furiongs was the feature of the day. Lena A. the speedy Texas filly, was the favorite at 8 to 5. She won in a hard drive by a half a length from Blue Ridge who was a length in front of Ardita. While the field was at the post Crescent City reared and threw Jockey Cochran. The boy escaped injury. In the steeplechase Dick Furber, the favorite, just beat Don Clarencio. Gen McCiruder, who ran a very poor race yesterday, took the second race at six furlongs easily. Summaries:

PERRY HALE RETURNS TO YALE. Illness Changes the Noted Full Back's Plans

NEW HAVEN, Feb. 27 .- Perry T. Hale, the brilliant full back of last season's Yale 'Varnounced that he intends to remain in the university as a student in the post-graduate department until the end of the year. He has, however, changed his mind about taking two years' in the post-graduate department, as he had originally intended, and he makes ched the following explanation:

"It is true that I have changed my plans for taking a two years' rost-graduate course in the Sheffield Scientific School. That is, I have decided not to return to Yale next year, although when I came here last fall I started a two years' course and fully expected to remain two years for my doctor's degree. The faculty of the Sheffield School has offered no objection to my leaving Yale without spending two years in post-graduate work. In fact, it was after a conference with the faculty that I decided not to return to Yale for another school year. The faculty advised me not to return.

There been out of college practically since the football senson closed. I have been sick continually since then. I first had the grip and was sick for two weeks. For several weeks longer I have been suffering from abscesses. I am only just recovering from these attacks, and when I came back I found that I had missed so much work in my studies that it seemed to me as if I could not eatch up. I have accepted the offer to coach the Exeter Academy eleven the coming fall. I never had any intention of leaving Yale before the close of the present school year in June."

Hale had expected to be a candidate for the 'Varsity crew this spring, but he is so weak and so thoroughly disheartened at his loss of time in his studies that he will give up athleties. It is true that I have changed my plans Work on the Columbia has been started.

BOSTON, Feb. 27. - The match in the pool championship tourney to-night was the quick-est of the series. Grant Eby of Chicago and Irving Long of New York were the contest-ants, the former winning by a score of 150 to 77. Sherman of Washington and Stofft of Cleveland will play to-morrow night.

Though it had been heralded abroad that Though it had been heraided abroad that harmony reigned once more in the ranks of the National League of Professional Baseball Clubs, there was another outbreak among the magnates at the Fifth Avenue Hotel yesterday which resulted in the sudden withdrawal of Freedman of the New York club from the meeting. The trouble arose over the question of rowdy baseball. The League passed a rule to the effect that if a player should indulge in the use of obscene language the captain of the opposing team could file a protest with the umpire, who would be compelled to remove the offender at once. Freedman then asked to have the rule amended so that if an umpire refused to act promptly the officials of the home club could take the matter into their own hands and have the rule amended in the suite of the construction shed at the another outbreak among the matter into their own hands and have the rule amended in the suite of Professional Base-ball Clubs, there was another outbreak among the magnates in the Carruthers National Suite of the National Results in the Carruthers National Suite of the National Results in the Carruthers National Suite of the National Results in the Carruthers National Suite of the National Results in the Carruthers National Suite of the National Resulted in one stepped into the construction shed at the Atlantic Works this afternoon, and noted the individual resulted in the sudden within the like third game Otto Forge topped the individual resulted in one stepped into the construction shed at the Atlantic Works this afternoon, and noted the individual resulted in the sudden within the like third game Otto Forge topped the individual resulted in one stepped into the construction shed at the Atlantic Works this afternoon, and noted the individual resulted in the store of the progress which had been made within the like like Jam Queet tams. The magnates maintained that for any of them to go upon the field and usurp the prerogatives of the umpire would be merely a cause for increased disorder. There was a warm argument, with the result that Freedman was voted down. Then, according to the story told by Fred Knowles, Secretary of the New York club. Freedman scored the magnates unmercifully. He said that they had always blamed the umpires for disorder, while they were really to blame themselves, and that by refusing to accept his amendment they showed conclusively that they were unwilling to suppress rowdy ball. After the magnates had received this blast in ellence Freedman left the hotel with the parting shot that he would have nothing more to do with the League until the magnates decided to establish "clean ball." When the New York magnate had disappeared one of the delegates said:
"Freedman simply wanted us to make it

possible for him to go upon the field as he did in the Holmes riot and we could not see it. The umpire has power enough and he should Freedman's behavior was, to say the least. asked the League for the right to take Indianapelis, Louisville, Milwaukee and Detroit into the Interstate League, of which Power has been President for several years past. At midnight the magnates were hard at it, trying to devise a way to hurt the American League, which, by the death of the Association, is stronger than ever.

When the magnates went into session yesterday morning they proceeded to officially grant several of the Protective Association's demands. They accepted the agreement signed by Zimmer, the President of the Protective Association, to the effect that all National League players who might ump 13. Mordelmo, 114: Deusierswisel, 116.

BIG EXODUS OF JOCKEYS.

The Reiffs. Cash Sloan and Five Others Sall on the Oceanic.

Seven jockeys salled yesterday on the Oceanic to seek honors on foreign tracks and the crowd which gathered in the companionwey of the White Star liner tobid them bon voyage savored largely of the racetrack. This is the record for outward bound riders and the number leaving was further increased to the sealing of Elmer James on the New York.

Lester and Johnny Reiff, who will ride for Haggin's stable, were objects of especial interest. Lester has become engaged since he has been here and will be matried, when he returns in the fail, to the daughter of 19r. H. E. Rowell, an owner and trainer at Oaks land. boat, and he remarked that the craft "looked something like" The workmen added a couple of more frames before the afternoon's work was over and those now up are Nos. 26 to 60, inclusive.

The most difficult framing has now been done, and with thirty men working, a gang of ten on either end of the craft, it is confidently asserted that Saturday night will see the last frame in place. At the bottom of the keel patterns for the "fillers" to go between the outside edges of the backing bars and what will be the inside surface of the bronze plating, have been made, and as soon as these have come from the black-smith shop the lower strake of plating will be put in place and riveted up. It is the intention of the builders to put in the pigs of lead and run in the hot metal to seal them in position just as soon as the bronze is on. The lead will fill the keel up to a distance of about six feet from the bottom and there will be pint in prospect of his entering the new Shaurreck in the regatta for the Lawson suppler a contest as Mr. Lawson suggests would be interesting. Would be prepared to consider the matter favorably, but it is impossible at this early stage to give a definite decision."
